#### ANOTHER INFERNAL MACHINE.

Mr. Hilderman, a house painter, in West Chester, Pa., on Thursday lest. 6th instant, found in an alley near his residence, in that borough, a small pine box, six inches long, four wide, and two deep. The lid was a sliding one, with a notch in it, and Mr. H. attempted to open it, but found the lid, from some cause, fast. A thought of the Cincinnsti tragedy fortunately crossed his mind, so he produced a hammer and drove one end in, when the box was found to be partly filled with ganpowder, and the rest with pewter sand. On the under side of the lid a piece of sand paper was let into the wood. Friction matches, six in number, were firmly fixed in a piece of wood running across the box, in front of which a quill was arranged and passed down through the sand to the powder, the quill also being filled with powder. When the lid should be drawn, the sand-paper would come in contact with the matches, the fire from which would almost certainly ignite the powder in the quill. The cause of the lid not drawing was produced by a portion of the giae running down one end of the box and fastening it, otherwise the explosion would have teken place. No clue to the scoundrel who devised this horrible engine has yet been obtained.

Lovers' Sticide.—A young man named Isaac P. Nash, belonging in Abington, and a girl named Arisna Sampson, belonging in Stoughton, who apparently "loved not wisely but too well," drowned themselves in Reed's pond, at East Abington, yesterday afternoon. Their bodies were found this morning, clasped in each other's arms. They had taken a ride together in a chaise; the team was discovered tied to a fence near the water, with some of the clothing of the deceased near by. In the man's hat the following note was found:

My name is Isaac P. Nash. In this water you will find me. I am a prefectlyssame mas.

# CITY ITEMS.

The weather continued yesterday very cool.

CASTLE GARDEN OFERA.-The main novelty of the Opera last night at Castle Garden was the debut here of Madame D'Ormy, the new contralto. We wish we could speak from being interested in what she did, but we have a constitutional horror of seeing the worst of farces—that of women dressed in man's clothes-and strutting duello like about the stage-touching sword-hilt, and challenging, so forth, all in the harmonic tones of the sex-consecrated by nature to gentleness and love. Alboni even was a nuisance in such characters; they are utterly and irredoomsbly bad, running in the face of nature. In point of truth, they are not a remove above the lyrical monster of the Pope's chapel, and could only come of a nation whose political philosophy needs regeneration. Thus much for the feminine-man business on the stage, which should be if we must have them, balanced with men, bearded and whiskered, doing the characters of Juliets and Violas. Apart from this we would add that the new contralto has a face of singular intelligence—vivacious action, and an excellent voice. The song she sang—by the way the best melody of the opera-was roundly applanded; and at the close of the first act, the principal singers were all called for. We did not see the other acts, but would judge that Graziani excited his audience by his carnest style and capital voice, in the climax scene. The tenor gave his first air with great sweetness. Madame Bertucca-Maretzek is quite recovered, and performed with spirit.

The Board of Aldermen resorted to their old habit last evening, and spent much valuable time in useless discus sions. Some of the members never indulged more copi ously in low and abusive language, bad grammar and still worse ideas. The report in favor of paying the liquor bill, \$390, of the keeper of the City Hall for the Committee on the 22d February last, was, after a struggle, carried by a vote of 13 to 4. Ald. Voorhis charged that the Committee, with the liquor furnished for the 22d, kept a rum-shop in the Hall for two months afterward, drinking and carousing every night; also, that he believed that the dnel challenge between two Councilmen origi this very liquor. A petition asking that the Ninth-av. Railroad Co. be compelled to proceed with the construc-tion of their road, and not be allowed to obstruct the streets longer with material, was referred to the Committee

PEACHES-FAR FETCHED AND DEAR BOUGHT .- Of course the peaches now for sale in the Broadway Saloon will do for the ladies upon the principle involved in the old adage at the head of this item, for they come from Columbus, Georgia, and are sold for a shilling a piece, and no very large at that. They are deep red and yellow color, plum shaped, and of excellent flavor, we guess, not hav-ing tasted of them, or had any thought of doing so at pre-A few years ago we should as soon thought of seoing

The statistics of births are supposed to be nearly or rect, but it is believed that many mariages are not reported.

Sale of Horses.-On Tuesday, a sale of valuable horses took place at the "New-York Tattersall's," in Sixth-av. Nearly a thousand persons were in attendance, and the bidding was active. From twelve to fifteen horses were put up during the early part of the sale, and were bid off at prices varying from \$200 to \$550. The main interest that attached to the sale was the announcement that the trotters, Mac, Tacony, Frank Forrester and Barnum, would be sold under the hammer. Mac was struck off at \$4,100, to Mr. Mann of Baltimore; Tacony was sold for \$3,700, to Mr. J. G. Bevens of this City Frank Forrester was sold to Mr. Mann also, who paid \$2,350. Barnum was withdrawn from the auction, he having been sold at private sale during the morning for the sum of \$2,850. Two marcs-a bay and a black-were put up, each being warranted to trot a mile in 2.40, and together in 2.45. They were said to Mr. or in 2.45. They were sold to Mr. Getson for \$1,150.

CRICKET .- At the meeting held yesterday, on the ground of the New-York Club at Hoboken, the following players were chosen for the National Match, United States vs. Canada, to be played at Toronto Wednesday and Thursday next, July 19 and 20: Messrs. Sharp, Waller. Bing-ham, Gibbs, Sams, Sam. Wright, Comery, Fletcher, Cuyp, Marsh and F. Tinson. Mr. Nichola of The Sunday Mercury will stand umpire. Some of the players leave here on Saturday, but the body of them start on Monday morning by the 6 o'clock train on the Hudson River Railway. They all meet at Niagara Falls and procoed Tuesday morning to Toronto. The names of the Canada men have not been furnished, but they are expected to be stronger than they brought down here last

among the eleven.

A gootleman from Newark was on the ground trying to form a match between eleven of Newark against eleven

of New-York-all Americans-but had to postpone it till after the above great match.

An interesting single wicket match was played between De Grave and Winterbottom. They played even first, and De Grave beat by frightful odds. De Grave then gave three wickets and won again. He then gave six wickets and again won, when Winterbottom very good-humoredly acknowledged himself best.

The Milwaukee Club vs. Lishon Club played a wellcontested game on the ground of the former on the 4th of July, which ended in favor of Milwaukee, with five wickets to go down. The score was: Milwaukee, 61 and 46total, 107; Lisbon, 85 and 21-total, 106. They play a return match at Lisbon. Time not fixed.

FORGERY ON THE BANK OF THE STATE OF NEW-YORK. -Frank E. Lancaster alias Lawrence, a young man 21 years of age, was yesterday arrested charged with ferging the name of Mr. Bernardo Gallol of No. 22 Abingdonplace, two checks on the Bank of the State of New York, one for \$1,800 dated Jan. 5, 1854, the other for \$300 dated March 21, 1854, both of which he presented at the Bank and got cashed. Since the felony was committed the accused has been out of the city, and returned to it quite recently, when he was seen by ex-Justico Merritt of the Bank Police, who caused his arrest. On being questioned he admitted his guilt and was committed to prison by Justice Osborne for trial. He is a native of New-Hampshire, and is a clerk by profession.

mont & Co., corner of Hanover and Beaver-sta., was entered by means of false keys, on Tuesday night, and robbed of \$14,000 in \$1,000 bills, on the Bank of the State of New-York. PRESENTATION TO CAPTAIN CARPENTER, OF THE FIFTH WARD POLY ..- On Tuesday evening a pleasant affair come off at Marris's Hotel, Greenwich-st.; it being a presentation of Tes Service, consisting of a massive and highly wrought silver tea-pot, sugar-bowl, slop-bowl, and milk pitcher, together with a dozen silver tea-spoons, to Daniel Carpenter, Captain of the Fifth Ward Police. 116 Hudson-st., who was the originator of the testimonial. Mr. McAuley, in a brief address, said that this mark of respect to the guest of the evening, was the free offering of some of the most respectable citizens of the Ward, without regard to party; he himself being a political op-ponent, but a werm personal friend. Mr. McAuley having finished his remarks, Captain Carpenter arose, and made a short reply, thanking Mr. McAuley, and the citizens of the Ward generally, for the confidence as a citizen and public officer they still reposed in him, notwithstanding his reputation had been assailed. The company then repaired to the dining-room, and partook of a supper prepared by Mr. Harris; at the conclusion of which tousts were drunk, and speeches made by Erastus Brooks, Dr. Kennedy, and others. At a late hour the company dispersed, every one delighted with the evening's entertain-

The following inscription was on each piece of the silver: Presented to Captain Carpenter, of the Fifth Ward Police, by the citizens of the Ward, for his faithful discharge of duty. July 11th, 1854."

On the reverse side was the simple word " Worth."

TRIAL OF BRIDGE MODELS,-At the Crystal Palace on Tuesday there was a trial of strength between the Arched Truss" bridge of Henry Lanergan and the "Un-"cle Sam" bridge by Hammond Howe, under the super-intendence of O. H. Lee of the Hudson River Railroad, Civil Engineer. By the published terms of the trial, the 'Uncle Sam' was to sustain twice as much weight as its competitor. A model of each plan of bridge was presented, made on a scale of one to thirty, and representing single spans of about 475 feet in the clear. The following table shows the amount of load and deflection of each

f pounde.	
417	Deflection.
601	1.375 inches.
923	1.750 inches. 2.375 inches.

The Arched Truss was capable of sustaining an additional weight, and an offer was made by Mr. Lanergan to load it down to the breaking point; but as the conditions of the trial had been fully met, it was thought unnecessary to proceed further. The models were of white pine. and weighed between 60 and 65 pounds.

ARREST OF A DRUGGIST .- Peter Preterre, a druggist at No. 57 Anthony-st., was yesterday arrested by Sergeant S. J. Smith of the Lower Police Court, charged with selling a vial containing a solution of opium, without label-ling it "poison." Five drops of this medicine was administered to a child of Herny Leiske, at No. 77 Anthonyst., and caused its death-the babe being only 3 weeks old. Dr. Sachse of Pearl-st., gave it as his opinion that one drop of the medicine was sufficient to produce poisonous symptoms in an infant of that age. Preterre was held to bail by Justice Osborne in \$300 to answer the charge.

CHARGE OF DESTROYING EVIDENCE OF DEBT .- Henry ope, a policeman of the Third Ward, was yesterday ar-sted on complaint of Mrs. Forrester, keeper of a saloon at the corner of Brondway and Canal-st., who charges him with having, some time since, stolen a note signed by him and passed to her for \$126, which sum he borrowed from her, and afterward destroying said note. It is alleged that he went to a bureau drawer in the house of Mrs. F., from which he took the note and afterward was seen to destroy it. He was taken before Justice Clark and held to bail in \$500 to answer the charge. He denies the truth of the charge.

CHARGE OF FORGERY AND FALSE PRETENSES -A man named Edward Stiffen was yesterday arrested, charged with having, by false and fraudulent pretenses and by with having, by laise and trauscust processed as forgery, obtained from the Custom-House about \$400 worth of hats, the property of Ewald Obrecht of No. 116 Varick-st. It is further alleged that the accused sold most of the goods and pocketed the money. He was keld by Justice Clark for examination.

MADAME SONTAG .- In our last we mentioned the sudden demise of Madame Sontag at New-Orleans, and spoke of her residence at Staten Island and the attachment felt for her residence at Staten Island and the attachment felt for her by many of our peeple. She was a constant worshipe at St. Mary's Church at Clifton, and on Friday last a solemn service for the dead was celebrated there in her memory by the Rev. Mr. Lewis, at the request of the la-dies of the church. [Staten Islander, 12th.

THE FERRY—A STRIKE FOR WAGES.—The coal-passers and firemen of the Staten Island Ferry have succeeded in obtaining five dollars advance on their monthly wages. They petitioned for it in a very respectful manner, but no attention was paid to them until they finally struck for wages on the 3d of July. The firemen are now receiving \$40 a month.

EASTERN DISPENSARY.—The following is the report of this institution for the month of June: Patients attended at the office, 1,260; males, 467; females, 793; patients attended at their dwellings, 199; males, 78; females, 121; number of persons vaccinated, 239; males, 131; females, 109—total, 1,698. There were cured or relieved, 1,352; sent to hospital, 17; remaining under treatment, 79, and died, 11. Of the whole number there were born in the State of New-York, 486; in the other States of the Union, 130; and in foreign countries, 1,082. Medical advice and medicine were as usual furnished gratis. The number of prescriptions put up for the month was 2,348; the largest number in one day was 145; the smallest number 31; average per diem, 90.

ACCIDENT ON THE EIGHTH-AV. RAILROAD.—Thomas McManus, a laborer, while engaged at work in a sewer, in West Broadway, on Tuesday afternoon, had his hand dreadfully crushed and mangled by one of the Eighth-av. cars, a wheel of which passed over it. He was taken to the New-York Hospital.

DEATH FROM CHOLERA.—Coroner Hilton yesterday heid an inquest at No. 40 Watts-st., upon the body of Park. Mackey, a native of Ireland, 40 years of age, who died suddenly of cholera.

FOUND IN THE WATER.—The body of a female infant was found yesterday in the East River, foot of Eighteenth-st., and an inquest was held upon it. Verdict—Stillborn.

MELANCHOLY SUICIDE.-Mrs. Eliza Jane Davis, a na MELANCHOLY SUICIDE.—Mrs. Eliza Jane Davis, a native of this City, 35 years of age, committed suicide on Tuesday evening, at her maidence No. 465 Sixth-av., by hanging herself to a bed-post by a piece of rope. Coroner Wilhelm yesterday held an inquest upon the body when Mr. John Davis, husband of deceased, stated that his wife became insane four years age, and had been sent to the Asylum at Bloomingdale, from which she was discharged some months after, as being nearly cared. She continued perfectly sane until May last, when it was found necessary to watch her. About a fortnight since she attempted self-destruction by taking laudanum, but was discovered in time to same her life. On Tuesday evening her little son found her suspended by a rope to the bed-post and dead. A letter was found on her person addressed to her husband. It was conched in the most affectionate terms and contained excellent advice regarding the bringing up her children. The unfortunate woman in regimed that all the world was conspiring against her, and although she admitted it was a hard trial to separate from her little bey and girl, yet she fancied her death would be a source of relief to her neighbors and that it was actually necessary for the benefit of all. The Corocer's July rendered a verdict of "suicide while laboring "under issuide".

WEDNESDAY, July 12-P. M. There was quite a large business done at the Stock Board this morning, especially in Eric and Cumberland, in which stocks speculation seems fairly to have commeneed again. The market opened with some firmness, but was not sustained at the close. At the Second Board the transactions were small, excepting in Reading, and prices heavy, with no stocks pressing on the market at the decline. Reading sold as high as 73, b10, during the day, but fell off to 71 at the Second Board. It appears to be the general impression that the dividend will be passed for the present. Eric opened at 57%, and closed at Cumberland shows a decline of \( \psi \) cent. from yesterday. Nicaragua improved \( \psi \) cent. Canton was firm. New-York Central cash stock, which was quite scarce a few days since, has become more plenty, and sold down to 97], being offered still lower on sellers option. The dividend, it is stated, will be 4 P cent., but this is not official. The June receipts are also stated, not officially, at about \$550,000. Hudson River was firm. The Western Rail. road Stocks are improving again. Michigan Southern advanced 3 F cent., and Cleveland and Toledo 41 F cent. since yesterday. The panic in such stocks has been one of the most senseless features of the last week's events. A sale of Berdan's Gold Machine was made at 5%, a further advance. In Railroad Bonds there is but little doing, and rates are about as before. Government and State Stock

are very quiet.

There is no new feoture in the Exchange market excepting a little more firmness in consequence of advanced rates of freight on gold. We quote Sterling 81 29; for first class signatures. Francs, 5.134 25.114.

A reward of \$500 is offered by Mr. Belmont for the recovery of the \$14,000 in \$1,000 notes of the Bank of this State, which were stolen from the safe in his office, last night. The notes were received at a late hour yesterlay afternoon after the banks were closed, and were placed in the safe. This morning the Hanover-st. door of the office and the doors of the safe were found to be open and the money gone, as also about \$300 in gold and small bills. No violence had been used, all the locks having been skillfully picked. It will be very difficult for the thieves to make any use of the thousand dollar notes as the fullest informa-tion of the robbery has been spread over the country by placard and telegraph. The safe in question is very seldom used as a depository for money, and it is quite a re-markable coincidence that the robbers should have selected the only night for their operations when a large amount of booty could be obtained.

The Board of Directors of the Cleveland and Toledo Railroad Company:

New York, July 12, 1854.

The Board of Directors of the Cleveland and Toledo Railroad Company, in view of the almost universal distrust of all railroad securities, caused at the present moment by recent well-known developments, felt it to be adulty which they oved to their stock and bond holders to cause an examination to be made into the issues of the stock and bonds of the Company.

They requested the gentlemen whose names are subscribed to the annexed certificate to make the examination. They have this day concluded their investigation, the result of which is stated in their certificate.

It may be proper to state in addition that the annual report of the Directors was presented to the stockholders at their annual meeting on the first Monday of this month.

The stockholders ordered the report, with the accompanying reports of the Treasurer, Superintendent and Chief Engineer, to be printed, and the same will be published to the report, can be prepared for the press.

The bond and stockholders will find in those reports detailed, and it is believed satisfactory information respecting the affairs of the Company.

The Board of Directors of the New-Haven Railroad held a protracted meeting to-day, at which the questions connected with the late fraud were discussed, but no course of action was decided upon.

The Harlem investigation is not yet completed, and no

new developments have been made. It was stated in the street that the Company had decided to assume all the over-issued stock. The Company will probably do so, but we are confident that they have as yet taken no action on The banks which received the Mexican fund yesterday

are taking short mercantile paper to-day, due in August at ? F cent. to considerable extent, and some strictly first-class names have been passed as low as 6 V cent. As far as we can learn, these institutions are not lending any of the money on call. The market, in consequence of this action on the part of the banks, is better in the street for paper, and first-class four and six months' paper has been passed at 10 P cent., without much pressing or the market. The amount of capital seeking employment in paper has been much increased during the last week. Money on call is quoted as easy, although it is only so upon unquestionable securities and to well-known and prompt borrowers. It is generally concelled, however, that during the next four or six weeks the market will gradually work in favor of the borrower.

The improved state of feeling which has prevailed dur-

ing the week still continues, and financial matters are slowly settling back into old channels. Time, however, is still needed to reestablish confidence fully, meanwhile the contraction of engagements and the greater caution in borrowing and lending induced by the present state of af-fairs, will not be without healthy results; the lesson has been a severe one but the fruits will be wholesome. At Boston Money is accumulating in the hands of lenders,

and but for the unusual distrust in financial circles, rates would be much more favorable. At a meeting of the Second Mortgage Bond holders of the Vermont Central Railroad Company, a Committee was appointed to confer with the Trustees of the First Mort-gage, and require of them an account of the earnings and expenses of the road; also to ascertain from them upon

what ground they claim and retain possession of the road, and upon what terms they are disposed to surrender it.

From the report of the Eastern Railroad Company, presented at the annual meeting in Chapman Hall on Monday, it appears that the receipts of the year were \$613,141, leaving a net income over the expenses of \$229,298; but the real surplus is \$153,365 28. It was voted to authorize the Directors to issue bonds to the amount of \$1,500,000 for the purpose of funding the floating debt, which is \$1,640,325 31; and they were also authorized to give mortgages to secure the payment of these and all other bonds.
